PROFESSIONAL SUMMARY

Full-Stack and Mobile Developer with 5+ years of experience building web platforms and cross-platform mobile apps from concept to production. Delivered 10+ applications published on Google Play and the App Store, plus high-traffic news and organizational websites. Works across the stack: Flutter and Dart on mobile, Vue.js and Nuxt.js on the frontend, and Node.js, Python, and PHP on the backend, with a strong focus on performance, security, and clean, maintainable code.

TECHNICAL SKILLS

Mobile: Flutter, Dart, GetX, Provider, Riverpod, BLoC, Firebase

Frontend: JavaScript, Vue.js, Nuxt.js, HTML5, CSS3, Responsive Design

Backend: Node.js (Express), Python (Django, Flask), PHP (Laravel), Java

Databases: MySQL, SQL Server, SQLite

APIs & Cloud: REST, GraphQL, Firebase, AWS, Google Cloud, Azure

Practices: Git, Unit / Widget / Integration Testing, Agile & Cross-functional Collaboration

PROFESSIONAL EXPERIENCE

Full-Stack & Mobile Developer | Self-Employed · Remote 2021 – Present

- Design and ship cross-platform mobile apps and web platforms for clients, from concept to production.
- Published 10+ Flutter apps to Google Play and the App Store across dictionary, news, education, and photo-editing categories.
- Build responsive web apps with Vue.js and Nuxt.js, integrating REST and GraphQL APIs with backend services.

Full-Stack Developer | TechSharks 2018 – 2021

- Led end-to-end web and mobile application development, owning projects from architecture through deployment.
- Standardized app architecture around GetX state management, producing maintainable code and faster feature delivery.
- Partnered with designers, QA engineers, and developers in cross-functional teams to ship polished, user-focused products.

Web Developer | WebJow 2014 – 2016

- Delivered web projects end-to-end in collaboration with designers, developers, and project managers.
- Hardened site security with encryption, access controls, and vulnerability assessments, **reducing breaches by 50%**.
- Grew site traffic **20%** through targeted social media campaigns and on-page improvements.
- Developed responsive interfaces and back-end logic using CSS, Python, and SQL.
- Diagnosed and fixed production bugs, improving site stability and user experience.

SELECTED PROJECTS

Mobile Applications (Flutter)

- **Dehkhoda Dictionary:** Comprehensive Persian dictionary with fast offline search ([Google Play](#) · [App Store](#))
